
REMEDIAL SITE ASSESSMENT DECISION – EPA Region 02

Site Name: HOLY TRINITY CEMETERY

Alias(es):

City: LEWISTON

County or Parish: NIAGARA

State: NY

Refer to Report Dated: 09/19/2013

EPA ID: NYN000206698

Report Developed By: Weston Solutions

State ID:

Report Type: EPA Preliminary Assessment #001

Decision Date: 12/31/2013

- ☐ 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because:

☒ 2. Further Assessment Needed Under CERCLA.
Higher priority for further assessment

☐ 3. Remedial study/cleanup needed.

Decision/Rationale:

The Higher Priority SI decision is based on the presence of radioactive slag, on-site targets (e.g., workers), and nearby targets (e.g., residences) potentially exposed to site-related contaminants. Radioactive slag is present in the cemetery grounds and there is an indeterminate amount of slag. The facility employs workers to maintain the lawn, grave sites, and cemetery offices on site. Residential housing is located directly across the road from the site. There are occasional visitors and funeral processions within the cemetery. Given the uncertainty of the slag quantities, further investigation is necessary.

Decision/Rationale (Continued):
